Dear Sir/Madam,

**Good Practice Guide on Plumbing Works and
Reference Materials on Connecting Copper Pipes**

The Water Supplies Department and the Construction Industry Council (CIC) have jointly launched the “Good Practice Guide on Plumbing Works” to provide practical guidelines for enhancing the management of plumbing materials and construction management of plumbing works. The CIC has also published the “Reference Materials on Connecting Copper Pipes” with an aim to improve the workmanship of plumbing works.

Attached please find copies of the above mentioned documents for your reference. The documents may also be downloaded from the CIC’s website at:
